SUMMARY

Second-year BCom Information Systems student at the University of Johannesburg, expected to complete in 2027, with hands-on experience in data analysis, SQL, Python, Power BI, Excel and business-oriented technology projects. Microsoft Certified: Power BI Data Analyst Associate and Azure Data Fundamentals. Seeking a 2027 internship where business, data and analytical problem solving intersect.

EDUCATION

BCom Information Systems | University of Johannesburg | 2025-2027 (expected)

Selected results: Development Software 2A 79%; Information Systems 2A 72%; Development Software 1A 75%; Information Systems 1B 78%.

TECHNICAL SKILLS

- **Data and reporting:** SQL, Power BI, Excel, Tableau, Power Query, DAX, data cleaning, data quality assessment, exploratory data analysis, dashboards and reporting
- **Programming and web:** Python, C#, JavaScript, HTML, CSS and FastAPI
- **Tools and platforms:** Git, GitHub and Microsoft Azure fundamentals

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300), Sep 2026
- Microsoft Certified: Azure Data Fundamentals (DP-900), Oct 2026; Google AI Essentials, Aug 2026
- UJ 4IR Programme, Jun 2026; Advanced Information Literacy Award, University of Johannesburg, Jan 2025

EXPERIENCE

Data Visualisation Trainee - Excelerate | Remote | Oct 2026-Present

- Analyse and prepare 5,700+ opportunity records, performing data-quality assessment, cleaning and validation; document decisions through a structured data dictionary and cleaning log.
- Conduct exploratory data analysis across opportunity trends, categories, locations, engagement indicators, fees and scholarship distribution; produce summary statistics, charts and written interpretations.
- Build an interactive Excel dashboard with KPI cards, filters and visualisations, translating analytical findings into stakeholder-focused insights and data-driven recommendations.
- Lead a remote project team by allocating tasks, consolidating and reviewing outputs, coordinating weekly submissions, and synthesising Weeks 1-3 findings for the dry run and final evaluation.

Deloitte Australia Data Analytics Job Simulation - Forage | Sep 2026

- Built a Tableau dashboard to analyse manufacturing downtime and used Excel formulas to evaluate gender pay-equality scores.

PROJECTS

SkillBridge AI - UJ x Vodacom x AWS Hackathon | 2026

- Developed a skills-to-work matching prototype with skill assessment, CV and ATS review, learning roadmaps and AI career coaching using fictional demo data; used HTML, CSS, JavaScript and Python/FastAPI.

UJ Compass - Student Support and Communication Hub | 2026

- Collaborated on a prototype featuring campus updates, service routing, support-request tracking, digital queues, accessibility features and simulated bus tracking.

Sales Data Analysis Dashboard and Student Performance Data Analyser | 2026

- Built an Excel dashboard with KPIs, charts and monthly views, plus a Python/CSV project that calculates averages, ranks results and identifies strengths and improvement areas.
