PROFESSIONAL PROFILE

Motivated IT student and aspiring Data Engineer/Data Scientist with a strong interest in using data and technology to solve real-world problems. Developing practical skills in Python, C#, SQL, Microsoft Excel, Microsoft Word, Azure Data Fundamentals and Power BI. Passionate about continuous learning, problem-solving and building useful digital solutions.

TECHNICAL SKILLS

- Programming & Data: Python, C#, SQL
- Data & Analytics: Microsoft Excel, Power BI (learning/in progress), basic data analysis
- Cloud & Data Fundamentals: Microsoft Azure Data Fundamentals (in progress)
- Productivity: Microsoft Word, Microsoft Excel
- Development: Basic web development and GitHub

SOFT SKILLS

- Problem-solving and critical thinking
- Communication and teamwork
- Adaptability and willingness to learn
- Time management and attention to detail
- Creativity and self-motivation

PROJECTS

Digital Queue Management Website

Created a website concept for managing queues digitally, aimed at improving the traditional queuing experience and helping users access queue-related services more efficiently.

EDUCATION

National Senior Certificate (Matric) - Completed 2023

CERTIFICATIONS & LEARNING

- Microsoft Azure Data Fundamentals - In progress; certification exam scheduled
- Power BI - In progress; exam scheduled
- 4IR Programme - University of Johannesburg
- FNB App Academy
- Entrepreneurship learning/training

CAREER OBJECTIVE

To begin my career in the technology and data field through an internship or entry-level opportunity where I can apply and strengthen my skills in data engineering, data science, analytics and software development while contributing to real-world projects.
